

1. INTRODUCTION

1.1 Overview

An JOB APP_BAKKIYA is an all-in-one human resource software that automates the hiring process, helps HR teams efficiently manage every part of recruitment (from job posting to onboarding), and solves recruiter's challenges and pain points.

1.2 Purpose

In this world there are many problems, but major problem is unemployment .So we create this app this app use full for control the unemployment, in this app you can easily create profile & recruiter's connect easily to company HR. This app will decrease the unemployment problems in the society.

2 .Problem Definition & Design Thinking

2.1 Empathy Map

Use this framework to develop a deep, shared understanding and empathy for other people.

An empathy map helps describe the aspects of a user's experience, needs and pain points, to quickly understand your user's experience and mindset.

Says

What have we heard them say?
What can we imagine them saying?

It has been nice so far but there few things that this app should have to make it more good 😊

THEME FEATURE

Almost everyone are now using "dark mode" everywhere. It is more convenient for those who already spend a lot of time in front of screen.

SHIFTS FILTER

As many users are trying to find a day job and tired of rotational or night shifts.

Also it should be a mandatory criteria for every job listing.

App is really good but bookmark button or archive button is no longer there. No scroll bar, so you have to scroll back all the way up.

Worst app i ever used. On numerous occasions, several job listings had the exact same locations when you click on the google map link, didn't give the exact location.

Says

APPLY FOR THE JOBS

You can apply for the job by just creating an account on JOB APP_BAKKIYA. Manage and keep a track of your job applications anytime and anywhere. Apply filters to easily browse and simplify the job search process.

SCHEDULE INTERVIEW

Unlike the other apps, on JOB APP_BAKKIYA, you can schedule interviews directly with the company. Our trending groups are rapidly gaining popularity among app users. And also this app is user friendly app.

GET A JOB IN 4 EASY STEPS

- 1) Download the JOB APP_BAKKIYA app.
- 2) Create and build your profile.
- 3) Call the employer directly.
- 4) Schedule your interview and get the jobs.

JOB ALERT & SMART FILTERS

Get job alerts and notifications instantly about new job listings and new career opportunities. Use refined and smart filters to choose from your best interests, you won't have to worry about applying in the wrong organization & getting your time & efforts wasted.

GOVERNMENT EXAM PREPARATION

This group is for government service aspirants. Use in this community share, practice, solve questions and test papers for various government exams to prepare for government jobs. This is a highly active group with daily challenges & informative conversations. Learn and solve your doubts and queries. Build your professional network and meet like minded people.

Does

What behavior have we observed?
What can we imagine them doing?

JOE
APPLICA
TRACK
SYSTE

Thinks

What are their wants, needs, hopes, and dreams? What other thoughts might influence their behavior?

Create our own profile and list out the job vacancies in home page

Do not leak our own bio data information and also we want privacy policy.

We want the job details that means day or night shift ,working hours and salary etc.

Update our current qualification and additional skills in our bio data.

Suppose,if we are female employee we have to provide information about our security.

ION
NG
M

Automatic elimination of every resumes(even great ones) that the system can't read and interpret.

Another drawback of applicant tracking system is that at times they can be unreliable. For example applicant tracking systems may reject files for invalid reasons,such as the scanner not being able to read them properly.

Registration is delayed due to high number of advertisements and also internet loss occurs.

Getting a job by taking over an individual's profile information.

Most job listings are just copied from either the company website or job search sites,so you just end up another site where you have to create an account and give up your data.Very few job apps offer more features than similar apps. Not recommended at all.

Feels

What are their fears, frustrations, and anxieties? What other feelings might influence their behavior?

2.2 Ideation & Brainstorming Map

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

⌚ 10 minutes

1/1

A Team gathering

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

C Learn how to use the facilitation tools

Use the Facilitation Superpowers to run a happy and productive session.

Open article

1

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

⌚ 5 minutes

Key rules of brainstorming

To run a smooth and productive session

Stay in topic.

Encourage wild ideas.

Defer judgment.

Listen to others.

Go for volume.

If possible, be visual.

2

Brainstorm

Write down any ideas that come to mind that address your problem statement.

⌚ 10 minutes

Person 1

THEME FEATURE Almost everyone are now using "dark mode" everywhere.	No scroll bar.so you have to scroll back all the way up.	Google map link, didn't give the exact location.

Person 2

To create our own profile and list job vacancies on homepage.	Don't leak information about our profile.We also have a privacy policy.	Update our current qualification & additional skills.

Person 3

Manage and keep a track of your job applications anytime & anywhere.

You can schedule interviews directly with the company.

This community help to prepare for government exams.

Person 4

Automatic elimination of every resumes that the system can't read and interpret.

Registration is delayed due to high number of advertisements.

Getting a job by taking over an individual's profile information.

1/1

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

⌚ 20 minutes

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

⌚ 20 minutes

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

1/1

Quick add-ons

Share the mural

Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.

Export the mural

Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

Keep moving forward

Strategy blueprint

Define the components of a new idea or strategy.

3.2 Activity & Screenshot

Milestone 1-saleforce:

The screenshot shows the Salesforce Setup Home interface. At the top, there's a navigation bar with icons for Home, Object Manager, and a search bar labeled "Search Setup". Below this is a sidebar with a "Quick Find" search bar and a list of categories: Service Setup Assistant, Multi-Factor Authentication Assistant, Release Updates, Lightning Experience Transition Assistant, Salesforce Mobile App, Lightning Usage, Optimizer, Administration (with sub-options like Users, Data, Email), Platform Tools (with sub-options like Subscription Management, Apps, Feature Settings, Slack, MuleSoft, Einstein, Objects and Fields, Events, Process Automation, User Interface, Custom Code, Development, Performance, Environments, User Engagement, Integrations, Notification Builder, Offline), and Settings (with sub-options like Company Settings, Data Classification, Privacy Center, Identity, Security). The main content area is titled "SETUP Home" and features three cards: "Get Started with Einstein Bots" (Launch an AI-powered bot to automate your digital connections), "Mobile Publisher" (Use the Mobile Publisher to create your own branded mobile app), and "Real-time Collaborative Docs" (Transform productivity with collaborative docs, spreadsheets, and slides inside Salesforce). Below these cards is a section titled "Most Recently Used" showing 10 items in a table:

NAME	TYPE	OBJECT
Hr Manager	User	
Hr Manager	User	
Sales Manager	Profile	
Standard User	Profile	
Cross Org Data Proxy User	Profile	
Recruiters	Custom Tab Definition	Recruiter
Candidate	Custom Object Definition	
Job title	Custom Field Definition	Job
Description	Custom Field Definition	Job
Recruiter	Custom Field Definition	Job

Description:

First go to Google and search developer.salesforce.com, then type first name and last name, email, company, country, region, postal code and user name and then click sing in. Go to mail, there is a verify account and click it.

Milestone 2-object:

The screenshot shows the Salesforce Object Manager interface for the 'Recruiter' object. The left sidebar lists various configuration tabs: Fields & Relationships, Page Layouts, Lightning Record Pages, Buttons, Links, and Actions, Compact Layouts, Field Sets, Object Limits, Record Types, and Related Lookup Filters. The main 'Details' tab is selected. The 'Description' section contains the API Name 'Recruiter__c'. The 'Custom' section shows Singular Label 'Recruiter' and Plural Label 'Recruiters'. On the right, under 'Enable Reports', 'Track Activities', and 'Track Field History', the '✓' checkbox is checked. Under 'Deployment Status', it says 'Deployed'. Under 'Help Settings', it says 'Standard salesforce.com Help Window'. At the bottom right are 'Edit' and 'Delete' buttons.

The screenshot shows the Salesforce Object Manager interface for the 'Job' object. The left sidebar lists the same configuration tabs as the Recruiter object. The main 'Details' tab is selected. The 'Description' section contains the API Name 'Job__c'. The 'Custom' section shows Singular Label 'Job' and Plural Label 'Jobs'. On the right, under 'Enable Reports', 'Track Activities', and 'Track Field History', the '✓' checkbox is checked. Under 'Deployment Status', it says 'Deployed'. Under 'Help Settings', it says 'Standard salesforce.com Help Window'. At the bottom right are 'Edit' and 'Delete' buttons.

The screenshot shows the Salesforce Setup interface for the 'Object Manager'. The left sidebar lists various setup categories like Fields & Relationships, Page Layouts, and Lightning Record Pages. The main panel displays the 'Details' for the 'Tab' object. It includes fields for API Name (Tab__c), Singular Label (Tab), and Plural Label (Tabs). On the right, there are checkboxes for enabling Reports, Track Activities, and Track Field History, all of which are checked. Deployment Status is set to 'Deployed'. Help Settings point to the standard salesforce.com Help Window. At the bottom right, there are 'Edit' and 'Delete' buttons.

Description:

First I known the objects and their types. There are two activities, in first activity to create a custom objects for recruiter, jobs, candidates, job application object and tab. Save and leave.

Milestone 3-fields:

The screenshot shows the Salesforce Setup interface for the 'Object Manager'. The left sidebar lists various setup categories. The main panel displays the 'Custom Field Definition Detail' for the 'Appointment_Invitation' custom field. The 'Field Information' section shows the field label as 'Appointment_Invitation', field name as 'Appointment_Invitation', API name as 'Appointment_Invitation__c', and data type as 'Text'. The 'General Options' section has a 'Required' checkbox checked. At the bottom right, there are 'Edit', 'Set Field-Level Security', 'View Field Accessibility', and 'Where is this used?' buttons.

Description:

In the fields, there are four activities. First activity create the custom fields, click the object manager tab, and then click fields& relationship. Then type field label as job title, length as 30, filed name as job title and click save button. Do the remaining activities like above procedure.

Milestone 4-Tab:

The screenshot shows the Salesforce Setup interface. In the left sidebar, under 'User Interface', the 'Tabs' section is selected. A search bar at the top right contains the text 'Search Setup'. The main content area displays a 'Custom Object Tab' titled 'Recruiters'. Below it, a 'Custom Tab Definition Detail' table shows the configuration: Tab Label is 'Recruiters', Object is 'Recruiter', Tab Style is 'Camera', and the description is 'Below is the information for the custom tab. Click Edit to change the custom tab.' The table also shows 'Created By' and 'Modified By' both listed as 'BANUPRIYAK' on '28/03/2023, 1:27 pm'. At the bottom of the page, there is a JavaScript footer: 'javascript:srcUp(%27%2F01r2w00000f8AA%3Fsetupid%3DCustomTabs%26isdt%3Dp1%27);'. The system status bar at the bottom right indicates '8:02 PM 4/15/2023'.

Description:

In this section I known about the tabs. Create a tab, go to quick find and search tab, click the tabs, their type of objects as recruiter, tab style - chosen as camera, then click save button.

Milestone-5 Profiles:

The screenshot shows the Salesforce Setup interface. In the left sidebar, under 'Users', the 'Profiles' section is selected. A search bar at the top right contains the text 'Search Setup'. The main content area displays a 'Profile' titled 'Standard User'. Below it, a 'Profile Detail' table shows the configuration: Name is 'Standard User', User License is 'Salesforce', and the description is 'Users with this profile have the permissions and page layouts listed below. Administrators can change a user's profile by editing that user's personal information.' The table also shows 'Created By' and 'Modified By' both listed as 'BANUPRIYAK' on '21/03/2023, 1:12 pm'. Under 'Page Layouts', it lists 'Standard Object Layouts' and 'Object Milestone' for various objects like Global Layout, Email Application, and Opportunity. The system status bar at the bottom right indicates '8:08 PM 4/15/2023'.

The screenshot shows the Salesforce Setup interface under the Profiles section. The main title is "Sales Manager". It displays the profile details: Name (Sales Manager), User License (Salesforce), Description (None), Created By (BANUPRIYA K, 28/03/2023, 2:55 pm), Modified By (BANUPRIYA K, 28/03/2023, 2:55 pm), and Profile (Sales Manager ~ Salesforce - Developer Edition). Under "Page Layouts", it lists Standard Object Layouts (Global: Global Layout [View Assignment], Email Application: Not Assigned [View Assignment]), Object Milestone (Object Milestone Layout [View Assignment]), and Operating Hours (Operating Hours Layout [View Assignment]). The status bar at the bottom shows the time as 8:09 PM and the date as 4/15/2023.

Description:

In this section I known about profiles. There are two activities, in first activity create a custom profile for recruiter, I create like given procedure. In second activity create a custom profile for sales manager. And save it.

Milestone-6 User:

The screenshot shows the Salesforce Setup interface under the Users section. The main title is "Hr Manager". It displays the user details: Name (Hr Manager), Alias (hrman), Email (hk4011575@gmail.com), Username (priya@jobapp.com), Nickname (User1680008396831888625), Title (None), Company (None), Department (None), Division (None), Address (None), Time Zone (GMT+05:30) India Standard Time (Asia/Kolkata), Locale (English (India)), Language (English), and Role (Salesforce Platform, Standard Platform User). The status bar at the bottom shows the time as 8:11 PM and the date as 4/15/2023.

The screenshot shows the Salesforce Setup interface under the 'Users' section. A user named 'Hr Manager' is selected, displaying detailed information such as Name, Alias, Email, Username, Nickname, Title, Company, Department, Division, Address, Time Zone, Locale, Language, User License, Profile, and Role (Sales Manager). The interface includes a navigation sidebar with options like Permission Set Groups, Permission Sets, Profiles, Public Groups, Queues, Roles, User Management Settings, and Users.

Description:

I know about users in this section. There are two activities. In first one quick find select users, then click new user. And enter the first name, last name, username and email address then save.in second one I create a user with username as 'Ganesh Gelli' like first activity.

Milestone 7-sharing rules:

The screenshot shows the Salesforce Setup interface under the 'Sharing Settings' section. A new sharing rule is being created with a label 'Candidate' and a rule name 'Candidate'. The rule type is 'Candidate Number equals true'. The interface also shows notes about roles and subordinates. The sharing rule is defined with the following criteria:

Criteria	Field	Operator	Value
	Candidate Number	equals	true
	--None--	--None--	
	--None--	--None--	
	--None--	--None--	

Sharing Settings | Salesforce
